Frequently Asked Questions

SEPTEMBER 20, 2016

OVERVIEW

Starting February 1, 2016, new Office 365 (O365) customers who purchase a minimum of 50 seats of eligible Office 365 SKUs and set up a new tenant, may qualify for the FY16 Office 365 Adoption Offer.

New O365 customers who purchase eligible O365 SKUs, based on the quantities and dates shown in the below reference table, and set up a new tenant, may qualify for an investment toward driving Office 365 Active Seat Usage (ASU) on a single eligible workload. Funds will be reserved by eligible partners in the below amounts based on the quantities of eligible SKUs purchased and the purchase date. Funds will be paid to eligible partners upon the completion of the Active Seat Usage (ASU) milestones.

FY16 Office 365 Adoption Offer Reference Table

September 1, 2015 – June 30, 2016	150 seats	1001+ seats	\$5 per seat
Maximum funding is \$60,000 per customer			

**Not valid on prior purchases*

Net new purchases of eligible Office 365 SKUs including E Suites (E1, E3, E4, E5), Office 365 ProPlus, SharePoint Online, Skype for Business Online, OneDrive Online, Yammer Enterprise SKUs, Project Online / Project Lite SKUs, and Project Pro for Office 365 and Visio Pro for Office 365 standalone SKUs, Government Plans (G1, G3, G4, G5), paid Academic SKUs, K SKUs, Non-Profit SKUs, Gallatin SKUs, Business Essentials, Business and Business Premium SKUs, Power BI Pro, Cloud Productivity S Plans and O365 GOVCON SKUs may be eligible for funding. Purchases may be made via the following Licensing programs: EA/EAS, EES, Open, Open Value, Open Value Subscription, MPSA, AOS, MOSP and Cloud Solution Providers (CSP) and Syndication Partners.

This offer runs from September 1, 2015 through June 30, 2016. The funding is at the customer tenant level, based upon the number of qualified SKUs purchased, not based upon the number of workloads deployed. This investment is paid directly to the Partner when the Offer milestones are reached and the invoice is submitted on time. The Offer milestones include a customer-approved Adoption plan or customer-approved Success Plan at fasttrack.microsoft.com and an incremental 15% of purchased seats in active use on a single eligible workload.

Project and Portfolio Management Competency Partners are only eligible for funding based on the number of Project Pro for Office 365, Project Online, and Project Lite SKUs purchased. The required ASU will be measured only on the Project workloads.

MCS and Cloud Deployment Competency Partners and Small and Midmarket Cloud Solutions Partners are eligible for funding based on all non-Project SKUs purchased. The required ASU will be measured on non-Project and non-Exchange workloads.

Here are examples of activities that partners may conduct to attain the desired outcome of incremental 15% active usage:

- Partner led project management and delivery services
 - Line of Business applications across workloads (SharePoint, Skype for Business, Visio, Yammer, Project Online/Project Lite)
 - SharePoint team sites, workflows and document storage
- Partner led change management, communications and training
 - Draft the vision, outline business objectives, and success measures for adoption jointly with the customer and obtain buy-in from an executive sponsor.
 - Define how Office 365 can help achieve the vision with proposed usage scenarios across specified Eligible Workloads
 - Prioritize and define a phased rollout approach across the user base with a plan for communication, readiness, and community strategies
 - Execute official launch events, training, brown bag sessions etc. with participation from executive sponsors and defined champions

ADOPTION INVESTMENT

Yes. A FastTrack Site funding request must be submitted and, if approved, an approved Purchase Order communicated to the partner before work is to begin. MS Procurement Policy mandates an approved Purchase Order must be in place before any fee-based work is to commence. Per this Offer's controls and compliance rules, no POs will be processed in ATF scenarios.

How does the Partner request the funds? ↑

A qualified Partner or MCS must profile the customer at fasttrack.microsoft.com. Once the customer approves the partner and the funding request at fasttrack.microsoft.com, then the Partner may request the funding. The funding request will be reviewed. If approved, the Partner will receive a PO, and then the Partner can begin working to drive the Active Seat Usage requirements. Per this Offer's controls and compliance rules, no POs will be processed in ATF scenarios.

The Partner may invoice Microsoft twice:

- Milestone 1: Incremental 5% of eligible SKUs are in active use on a single, eligible workload OR a [Value Discovery Workshop](#) has been complete. Partner may submit an invoice to receive one-third of the eligible funding
- Milestone 2: Incremental 15% of eligible SKUs are in active use on a single, eligible workload

The adoption investment is paid directly to the qualified Partner or MCS. In order for the Partner or MCS to receive payment, the customer will have to take various actions, including purchasing eligible SKUs, contracting with an eligible partner, and approving the Adoption Plan or Success Plan at fasttrack.microsoft.com. The customer needs to work with the partner to meet the above milestones in order for the partner to receive payment from Microsoft.
